

RVview 7"

Convenience, easy installation and perfect image is the name of the game with this HD Wireless Backup Camera System. Its 7" IPS-LCD Monitor connects straight to the cigarette lighter and a suction cup mount is available for easy mounting. The monitor comes standard with optional distance grid lines that can be turned on or off.

This system boasts a digital wireless connection that guarantees no interference for over 50m so that you get the greatest picture at all times. Its 120° camera comes with 18 infra-red night vision lights which enable you to see at night.

With an IP68 rating this IO8OP HD camera system is strong and reliable, shock resistant and comes with a full year warranty.

MW7HD
